UNIVERSITY OF HOUSTON SYSTEM
BOARD OF REGENTS AGENDA

ITEM: Approval of Intercollegiate Athletics Addition of Women’s Golf to Sponsored Sports List for the University of Houston

DATE PREVIOUSLY SUBMITTED:

SUMMARY: The Department of Intercollegiate Athletics seeks to add the sport of Women’s Golf to the list of NCAA Division I sports sponsored by the University of Houston. Women’s Golf will be added over the course of three years beginning in 2012-2013 and ending with full sponsorship and representation of the program in 2015-2016. The program is being phased in to assist in the financial impacts of adding a sport.

One of the principles of the Department of Intercollegiate Athletics is compliance with the Office of Civil Rights which includes the compliance with Title IX. Educational Amendment, Title IX states that "No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program or activity receiving Federal financial assistance." Institutions are provided the opportunity to comply with Title IX by satisfying one test of the three prongs:

(1) Provide opportunities substantially proportionate to enrollment; (because 51% of all UH students are female, 51% of the athletic participation opportunities must be for females – currently female participation is at 42%); OR
(2) Demonstrate a history and continuing practice of program expansion for the underrepresented sex; OR
(3) Fully and effectively accommodate the underrepresented sex.

Athletics last added a women’s athletics program in 2001 with sponsorship of softball. The addition of Women’s Golf will provide an opportunity to satisfy prong two of Title IX by demonstrating “a history and continuing practice of program expansion for the underrepresented sex.”

Women’s Golf is an appropriate fit for the Intercollegiate Athletics as there is a strong heritage of success in Men’s Golf which has enabled the construction of the golf training facility at Redstone. One of the primary expenses of adding a women’s sport is the issue of facility, and the new golf training center will accommodate both genders. Women’s Golf is a common sport represented in the Big East with many non-conference opponents available locally. Also, women’s golf is a popular sport played in Texas high schools which will assist in the recruitment of prospects to represent the University of Houston.

Title IX/Gender Equity

October 12, 2012
Title IX/Gender Equity

Title IX Compliance in Intercollegiate Athletics

- Title IX of the Education Amendments of 1972 is a federal law that prohibits sex discrimination in education programs, including athletics programs.

- Title IX requires the University to review all of its sports for gender equity in relation to the following three areas (1) Participation opportunities, (2) Scholarships, and (3) Other benefits.

- For the second and third areas (Scholarships and Other Benefits), Title IX requires equality between the men’s and women’s sports (e.g., if 40% of the student athletes are female, 40% of the scholarship dollars per year must be awarded to females; per diem must be the same amount for male and female athletes).

- For the first area (Participation opportunities) Title IX allows institutions to demonstrate Title IX compliance by proving one and only one part of the following 3 prong test it chooses:
  1) Provide opportunities substantially proportionate to enrollment; (because 51% of all UH students are female, 51% of the athletic participation opportunities must be for females); OR
  2) History and continuing practice of program expansion for the underrepresented sex; OR
  3) Fully and effectively accommodating the underrepresented sex.
Title IX/Gender Equity

Gender Issues at UH
Female enrollment
51%
Female participation
42%
(Note: This ratio is common for Universities such as UH with football teams due to roster sizes with more than 100 student-athletes. As a result, UH and most other institutions with football teams must prove Title IX compliance by either demonstrating a history and continuing practice of program expansion for females, or that the sports we currently offer fully and effectively accommodate the interests and abilities of females.)

- The University has eliminated 1 men’s sport and added 2 women’s sports since 1984, showing an effort towards eliminating the disparity between men’s and women’s sport offerings. Last addition was 2001 (Softball).
- Continue to gauge interest and abilities through regular assessments of enrolled and incoming female students and an analysis of areas such as the high school sports offered in the recruiting area, sports offered by universities in Texas and in the Big East.
- Continue use of an athletic interest survey among freshman and enrolled student population regarding their interest in varsity sports.
- Need clear procedure for requesting the addition or upgrade of a sport (a webpage will be created on the websites for Athletics and Campus Recreation for students to submit requests).
- Continue to fully and effectively accommodate underrepresented sex.
- Subject to the final results of the Title IX review athletics is currently conducting, Board approval is sought to add Women’s Golf.
